RIVER NEWS. Rise and Fall of the Rivers

EDWARD H. BOWIE, Local Forecase Official.

River Forecast.

The Missouri at Kansas City during the past 18 hours rell to 2.9, and in the same time rose to 29 at Boonville and to 25.5 at Hermann. This river will become stationary at Boonville to-day, but south of that print will continue to rise rapidly, a stage of 25 being probable at Hermann Friday. The Mississippi will rise steadily during the next 45 hours, and will reach the danger line. If feet, at Grafton during Friday. At 8.1, Louis the rate of rise will continue rapid, and 33.5 feet will be reached Friday morning and 34.5 Saturday night or Sunday.

Measures to protect property from a 36 stage by Monday should be taken.

Heavy receipts of hogs, together with a decline in prices at the yards, caused provisions to start weak and lower, but the strength in grains brought out buyers and the market turned strong. There was a good dem and from packers, as well ab a fair commission-house buying. Realizing toward the close caused a slight reaction. Sept. pork closed a slight reaction. Sept. pork closed at \$8.87½ and ribs were down 547½ at \$5.10.

Estimated receipts for to-morrow: Wheat, 35,000 head.

BULLISH FLOOD REPORTS RENEW GRAIN'S STRENGTH.

WHEAT DECIDEDLY ACTIVE AND PRICES HIGHER.

Heavy Buying of July Corn Causes a Sharp Advance, While Oats Are Also Helped.

Chicago, June 4.—Bullish flood news caused renewed strength in the grain plis-to-day, July wheat closing Pac higher, with corn 1811sc higher and oats up Tac. Profucts unchanged to 74c lower.

WHEAT.
Wheat ruled decidedly strong and trading was active, with a large volume of Wheat ruled decidedly strong and trading was active, with a large volume of business. The market was strong throughout the entire session opening prices being hisher on steady cables, small receipts and threatening weather. July was up by to 1,32 feet at 15c to 154,6754, and, after seiling at 144,6756, shortly after the opening prices steadily advanced. The exciting causes were the strength at St. Louis and the extremely bullish character of the Missouri crop report, which showed a loss of 17 percent in the condition of the crop during the past month. Demous reports from Kansas and Nebraska were also in evidence and created anxiety among the shorts, while the strength in corn was another bull factor. There was a good general demand all day, with light offerings. St. Louis continued to advance during the last hour, and the price rose in sympathy, closing prices being near the top. After selling at 164c. Clearances of wheat and flour were equal to 125,600 bu. Primary receipts were 229,000 bu. compared with 288,600 bu. a year ago. Minneapolis and Duluth reported receipts of 19 cars, no contract grade, made the total receipts for the three points of 18 cars, against 195 cars last week and 256 cars a year ago.

ears a year ago. CORN. Heavy buying of July corn by prominent 24. 83. 3.89 commission-houses and the generally bull-sh sentiment among local traders caused 1. 689. 2.75 an advance of over a cent in that delivery, while other months were also strong, but the demand was not so urgent for the more distant futures. Strong cables and the bull-ish cron reports were the chief bull factors. The Missouri crop report was extremely bullish and estimated that 5 per cent of the corn was not in the ground. Conditions in lowa, Kansas and Nebroska were also reported bad, and under these influences shorts were active buyers throughout the day and trading was on a large scale. After selling between 47th and 49649th, July closed 1814ch higher at 485485c. Local receipts were 322 curs, with 14 of contract grade.

OATS. in advance of over a cent in that delivery.

The uncertainty of the crop prospects and the strength in corn brought out a demand for oats, while shorts covered freely, resulting in a strong market. Aside from the steady demand and light offerings, the mar-ket was featureless. Close was strong, with July 'se higher at 35%, after selling be-tween 14% and 3%. Local receipts were 117 •1.7 July •0.9 tween •1.2 cars.

Native Run Light-Beef Cattle Easy—
Sheep Close Lower.

NATIVE CATTLE-Beef Steers—Native cattle receipts were light and somewhat smaller than last Thursday. Receipts so far this week are around 5,99 head, and in comparism with the same time last week shows a gain of 60 head, but a decrease of 2,090 head compared with the same time last month, while as against the same period a year ago they are only a few hundred short.

The proportion of beef steers offered was fully as large as a week ago, but the quality was not as good, the offerings classing from a fair to decent class of medium weights. There were no good cattle available. The opening was somewhat backward, as local buyers were not in great need of supplies. A few order huyers operated, but, while they did not lend a great deal of strength to the market, their support kept trade from being on a universally lower basis. Some sales of decent cattle were almost steady with Wednesday, but others sold at a loss of loc. The pens were cleared.

MULES—The week's arrivals as a whole have been small, not amounting to more than an ordinary supply for the season in the commission department, while dealers' receipts have not exceeded the proportion of former weeks. On one early day of the week the arrivals were preity fair, but succeeding days were light. The market has developed no decided change; if anything, it has been easier than lare week. Some demand from the East has prevailed, but it has neither been large nor urgent, and was contined altogether to very good classes. The only satisfactory outlet at the present time is for selected classes of miners and beavy mules. Dealers have very little demand for other grades, and are not wanting them very much in consequence.
